Focused on transforming the health of the community, one person at a time

By delivering better health outcomes at lower costs

Centene Corporation, a FORTUNE® 100 company, is a diversified, multi-national healthcare enterprise that provides a portfolio of services to government sponsored and commercial healthcare programs, focusing on under-insured and uninsured individuals.

For more than 30 years we have remained deeply committed to transforming the health of the community, one person at a time, by delivering results for our stakeholders: state governments, members, healthcare providers, uninsured individuals and families, and other healthcare and commercial organizations. Centene’s core philosophy is that quality healthcare is best delivered locally. A local approach enables us to give our members access to high quality and culturally sensitive healthcare services.

CENTENE’S SUCCESS IS DRIVEN BY OUR COMMITMENT TO:

- Focus on Individuals

LOCAL APPROACH WITH CULTURAL SENSITIVITY

We employ 48,100 people, many of whom work in our local health plan organizations across the United States. Our hiring practices reflect the composition of our membership and the local community. Equally important, our staff training focuses on the impact of culture on healthcare decisions, the impact of poverty on health, and the importance of providing appropriate resources for members with disabilities or linguistic barriers.
