Healthcare quality

Healthcare access

Healthcare affordability

Research and development

Public policy

CENTENE
Corporation

Live Our Values

G - Governance

Governance and accountability

Ethics and compliance

Data privacy and security

Centene Environmental, Social, Health, and Governance Strategic Framework

Transforming the health of the community, one person at a time

Protect Our Planet

E - Environment

- Identify at-risk member communities that experience health issues from environmental impacts and build resiliency into those communities.
- Reduce operational energy use and carbon emissions.
- Enhance ways of working to improve material use and waste creation in our operations.

Serve Our Communities

S - Social

- Continue to build and strengthen local partnerships to address social determinants of health.
- Promote diversity and inclusion at all levels of the organization.
- Thoughtfully engage talent across the organization by developing our employees to achieve their full potential.
- Foster health and well-being among our employees.

Cultivate Healthier Lives

H - Health

- Deploy population health programs that improve access and quality of care in areas that have the greatest impact on our members.
- Support the development of new technologies to deliver care and improve health outcomes.
- Engage in thought leadership and collaboration to build resilient and responsive health systems.

Live Our Values

G - Governance

- Promote good corporate governance and a culture of accountability to conduct business in a compliant and ethical manner.
- Commitment to secure and responsible handling of information and data.
